IN THE SPECIFICATION

Page 17, line 20, please make the following changes:

At 603, voltage can information is provided <u>--voltage information is provided--</u>. In one embodiment, pins associated with particular voltages are listed. <u>Instructions also be included to bypass and a capacitor</u>. <u>Instructions can also be included to bypass a capacitor</u>. In one example, voltage pins are listed in the following manner:

DVDD =
$$"1,2,3,30,31,32,46,47,48"$$
;

10/826,756
